## AROUND THE TOWN

Miss Melrose was a visitor at Calgary on Saturday and Sunday last.

Wanted—Girl, wages \$20 per month.—Apply Box 14, Pioneer Office.

Talking about good yields, Burchal and O'Donnell west of the Dog Pound Creek threshed 98 bushels of oats to the acre.

D. C. Corbitt is starting a lumber yard at the Three Hill creek. Lumber is already being placed on the ground ready to open up at once.

R. J. McMillan the well known horse dealer was a visitor to town this week. He has shown his faith in this country by investing in a section of land.

Coal is a scarce commodity in town just at present. There is very little being brought in from the east country and the dealers seem to be unable to get all they want by rail.

Lethbridge first grade flour \$3.15. Five sacks or over, \$3.05 per sack. C. C. Pearson's.

Hugh Sinclair sold one of his farms situated west of town this week. Mr. Boukin was the purchaser. We understand the price realised was a good one. V. D. Haag put the deal through.

Are you deaf? If so, we can make you hear with the Acousticon. Taube and Sons will gladly demonstrate this wonderful instrument at Chambers' Drug Store, on Thursday, November 25th.

H. H. Drake of Red Deer has taken over the Massey-Harris implement agency in town. Mr. Drake is an old Massey-Harris agent and one who will give you all attention and will be pleased to have all the old customers as well as new call and get acquainted.

For sale on terms—Top buggy, International hay baler, one set double harness, hardwood, heavy wagon, 1200lb. scales.—Apply James Martin, Didsbury.

At a meeting of the School Board on Monday night it was decided that a large fire gong should be bought for the school as the present one is ineffective. It was also decided that the teachers salaries should be paid quarterly instead of monthly as at present.

Leigh S. Curtis went to Red Deer as delegate for the hockey club on Saturday last. Owing to a misunderstanding locally Mr. Curtis could not stay to the meeting as it did not take place till Saturday evening. He understood while there that Red Deer did not intend having a hockey club this year.

STOP THROWING—Your shoes away just because they are badly worn, ripped and out of shape. The new shoemaker in Didsbury makes old shoes into new, and doesn't charge much for doing it. Bring your shoes to be fixed up and you won't want to buy a new pair for quite a long while. FRED HORTON, Shoemaker, Didsbury. Between Bill Bailey's Grocery store and North End Livery Stable.

Jessie Marie Biggers will appear here on Monday, December 6th under the auspices of the Presbyterian church. Miss Biggers is the only lady artist in the Dominion capable of giving an entire evening's programme and holding an audience spellbound from start to finish. All lovers of the best in English literature owe it to themselves to plan on having an evening for this entertainment.

Rev. C. C. McLauren, of Calgary, will preach in the Baptist Church on Sunday at 7.30 p.m.

Eggs for sale by the dozen or by the case.—A. A. Perrin, egg dealer, Didsbury.

N. Weicker will ship hogs on Tuesday, Nov. 30th. Hogs to be delivered on Monday, Nov. 29th.

Don't forget D. S. Shantz's big dispersion sale of pure bred Clydesdale horses and Short-horn cattle to-day.

The Didsbury school started its winter schedule on Wednesday morning. The scholars now assemble at 9.30 in the morning and 1 o'clock in the afternoon.

Three councillors and two trustees will have to be elected this year. Messrs. Hambling, Osmond and Moyer retire from the Council and Messrs. Rupp and Weber from the School Board.

Children's clothes and plain sewing done. Apply to Mrs. E. O. Livingston, next to Presbyterian Manse.

M. Weber has installed twenty new electric lights in his flour mill, elevator and house. These with the ones already in use give fine appearance to the mill and elevators at night.

The election in the Olds district on Tuesday resulted in a clean sweep for the Hon. Duncan Marshall, Minister of Agriculture. Marshall scored 562 votes against his opponent's 69, with 13 polls to hear from. Mr. Welch, Socialist, was opposing Mr. Marshall.

We are having a great many enquiries for improved land in the Didsbury district. If your farm is for sale send us particulars with the number, price and terms and we will find you a buyer.—Kennedy & Clarke, Real Estate and Money Lending Agents, Calgary.

85% of all headaches are the result of Eye Strain. If you are troubled that way, make it a point to consult Taube & Sons at Chambers' Drug Store on Thursday, November 25th.

The quarterly communion services of the M.B.C. church will be held in their church on Berlin St., on Saturday and Sunday next. A holiness convention will be held in connection to commence on Friday evening and will continue on Monday and Tuesday. Wednesday will be observed as a day of prayer. On Thursday, at 10 a.m., the annual conference will convene. Services every evening during the week. A hearty invitation is extended to all that have an interest in the cause of Christ to come and assist in advancing the interest of salvation and "Whosoever will may come and take the Water of Life freely."

The induction of Rev. D. H. Marshall into the pastorate of the Presbyterian church took place on Tuesday night in the Presbyterian church. The Rev. A. Mitchell, of Calgary conducted the first part of the services. Rev. Whidden, moderator of the Calgary Presbytery, the induction ceremony. Rev. McWilliams of Calgary, gave the address to the pastor and Rev. Short of Calgary addressed the congregation. Mrs. A. G. Studer sang as a solo, "One Sweetly Solemn Thought." After the ceremony a short social evening was spent by those present, refreshments being served. A very large number of the members of the church and others were present the church being filled to the doors.

## SUNLIGHT SOAP

THIS IS IT!

The soap that saves you work, and saves you money without injury to hands or article.

Sunlight Soap turns wash tub drudgery into pleasure. Get a bar of Sunlight to-day and try.

President of the Board.

"Englishman; twenty-five years old; about five feet eight inches high; indifferent build; walks a little with a bend forward; small moustache, hardly perceptible; talks through his nose; cannot pronounce the letter 's' properly, and does not know one word of Dutch."

This amusing description is translated from the warrant for the arrest of Winston Churchill issued by the Boer Government after his famous escape from Pretoria. He had gone out as a war correspondent, but was taken prisoner shortly after. Subsequent to his daring escape he both fought and wrote, which is contrary to the War Office regulations.

But Mr. Winston Churchill has always had a venturesome disposition. At twenty-one he was officer in the 4th Queen's Own Hussars, but, obtaining leave, went off to Cuba, and fought with the Spaniards. At twenty-three he again obtained leave of absence, and joined the Malakand Field Force in India, as correspondent. Immediately after this he joined Sir William Lockhart in the Tirah Expedition, and shortly after joined Kitchener in his advance on Khartoum and took part in the famous charge of the 21st Lancers.

When an undue amount of nervous energy is used in the brain there is certain to be failure in the other functions of the body.

Digestion is imperfect—the head aches—you cannot sleep—you become nervous and irritable—you are easily excited and quickly tired—your memory fails and you cannot concentrate the mind.

### Dr. A. W. Chase's Nerve Food

Is a creator of new, rich, red blood and hence a builder-up of the nervous system.

Best food and gentle in action. It is especially suited as a treatment for nervousness at the critical period in life when important physiological changes are taking place. But you must look for imitations. To give a box, all dealers in medicine, Dr. A. W. Chase & Co., Toronto.

### THE DEW ORIF.

Why "Joe" Rogers Was Chosen to Command Police.

The appointment of Inspector "Joe" Rogers to the post of Superintendent of Criminal Investigation of the Province of Ontario, has led to a great deal of criticism which reads rather strangely to the reporters who have been accustomed to work with him in the investigation of cases in the province for a good many years past. What he has done to work with him in the investigation of cases in the province for a good many years past. What he has done to work with him in the investigation of cases in the province for a good many years past.

That is to say, he pursued more of the method in use at Scotland Yard and by the Pinkerton agency of making a complete record of all details of a case in writing. In this way he had his witnesses down, and most of the original assertions. For this reason criminal lawyers in charge of the defence in cases where he had charge of were rather "leery" of tampering with witnesses in cases which he had charge of.

The qualities which the public appreciate in a detective are brilliant observation, but the quality alone does not always secure convictions. For instance, everyone is familiar with the discovery of a Sherlock Holmes, but in most of the mysteries solved by him a clever prosecutor would find it a very weak case to go to a jury with. The difference between Rogers and the most of the detectives is that between a good methodical desk-man in the foreground and a brilliant and a brilliant descriptive writer.

And under the reorganization of the department of criminal investigation it will be desk work that he will have to do. His special fitness for the position is in his knowledge of every nook and corner of the vast province of Ontario and of the capabilities of the local police who have for years back been a stumbling block in the way of justice. There are many arguments against the bureaucratic system in ordinary affairs of government, but unquestionably the best method of dealing with the only solution in this province. Not only in criminal matters was this so, but in the administration of the health regulations and of the license law there has been much difficulty owing to wrangling between the local officials and those of the Government. It will be the task of Mr. Rogers to see that the men under him attend to their duties and to "keep talk" on them, and no one who is familiar with his executive capabilities doubts that if he sets himself to the task that he will prove capable in this respect.

It may be said that the work of cleaning up the circus business in Ontario was practically his work, although the Harley administration got the credit of it. Before the present laws were put in force, the present circus, especially of the smaller variety, meant the arrival of a troupe of burlesque, but since then, and piecemeal, in addition to more violent burlesque, the circus has been cleaned up. The regulations which took the regulation of circuses in a measure out of the municipalities and substituted a provincial license and provincial inspection. He was also the man who put in force the new act so effectively that the business has been cleaned up in Canada, and most of the northern States have adopted similar legislation.

### An Unfortunate Earl.

There have been one or two unlucky episodes in the career of Earl Grey, who got lost in a Canadian forest recently. A short time ago, when he was about to retire one night, an incandescent globe, near which he was standing, exploded, and fragments of glass penetrated his right eye. Fortunately, a successful operation saved the sight. A Parliamentary experience of 1878, too, when he put up for Parliament as a Liberal, was a rather unfortunate affair. His opponent was Mr. Ridley, and they both pulled the same number of votes. The returning officer declined to give a casting vote, with the strange result that both presented themselves at the table of the House of Commons to take the oath. Subsequently, however, a scrutiny was made, and some of the ballot-papers being found to be unmarked, Mr. Ridley was declared to be the legal holder of the seat.

### A Million of Silver.

Although he is in his seventy-sixth year, Lord Swythling, who has retired from the senior partnership of the great banking house of Montagu & Co., never suffered a day's illness until January of this year, when he was laid up with severe bronchitis. His reminiscences make interesting reading. "Our house," he says, "was contracted for a million sterling of silver, the largest amount I believe ever contracted for. I well remember when the Bank of France was short, and gold was at such a premium that it paid the bankers to draw golden napoleons from the bank itself, send them over to England to be melted down, and send them to France at a profit."

### AN EXCELLENT REMEDY.

Will Break Up a Cold in Twenty-four Hours and Cure Any Cough That is Curable.

The following mixture is often prescribed and is highly recommended for coughs, colds and other throat and bronchial trouble. Mix two ounces of Glycerine, a half ounce of Virgin Oil of Pine compound pure, and eight ounces of pure Whiskey. These can be bought in any good drug store and easily mixed together in a large bottle. The genuine Virgin Oil of Pine compound pure is prepared only in the laboratories of the J. & W. Chemical Co., Cincinnati, and put up for dispensing in half-ounce vials."

### A RELIABLE MEDICINE FOR ALL CHILDREN

Baby's Own Tablets are absolutely safe. This medicine is good for the newborn babe as the well grown child. It contains no opiate or poisonous stuff. The mother who gives this medicine to her child has the guarantee of a government analyst that these statements are true. This is worth something to every mother for Baby's Own Tablets is the only medicine that would stand such a guarantee. The Tablets cure such ailments as indigestion, colic, constipation, diarrhoea and teething troubles, destroy worms, break up colds, and thus prevent deadly germs. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Golf—The day I get all these links under a hundred I'll give you a shilling. Sweeney—Well, how will I want it when I'm drawing the auld age pension?—Punch.

Lakefield, Que., Oct. 9, 1907.

Minard's Liniment Co., Ltd. Dear Sir:—On the 17th of July, 1906, I was thrown from a road machine injuring my hip and back badly and was obliged to use a crutch for 14 months. In Sept. 1906 Mr. Wm. Outridge of Lacchu used me to try Minard's Liniment which I did with the best effect. My factory resumed work and today I am as well as ever in my life.

Yours sincerely,

MATTHEW X. BAINES, mark

### Worse than Hanging

"See here," grumbled the condemned man, "ain't there a law against cruel and unusual punishment?" "Yes," answered the warder. "An' ain't I to be hanged next week?" "I'm afraid you are."

"Then what d'yer mean by sendin' me a bunch of papers to read that ain't got nothing but serial stories in 'em?"

There is more cancer in this section of the country than in any other. In the last five years was supposed to be the largest. For a great deal of time the people have been suffering from cancer. ### The Typical More.

The typical More is never unarmed. He fights equally well on foot, on horseback, in his deer war canoe, in the water, for he swims like a fish and dives like a penguin.

### Rubies.

Rubies are more valuable than diamonds and are practically indestructible, except by fire. While a flawless diamond of 1 carat may be worth roughly about \$100, a perfect ruby of the same weight would be worth at least \$200. With increase of size the difference becomes much greater.

### A City of Canoes.

Oswego, Ia. might be called the City of Canoes. There is a Venetian aspect about the little six months' old silver city, for the waterways form the principal means of getting back to civilization or farther back to the frontier. Here and there canoes are dragged up on the shore, while others, sped by the paddles, strike westward, southward and northward during every hour of daylight. At the foot of the main street a big white launch lies up alongside the flotilla of canoes like the Lusitania among a lot of river tugs or ferries. Tents dot the landscape here and there among the larger and more permanent buildings of log or board.

As Gowanda is supposed to be a dry town, a realistic touch is given by a sign which bears the words "Gowanda Saloon," but only soft drinks are served. Down at the water front is a unique institution called the "Gowanda Canoe Exchange." Another building boasts a signboard bearing the words "Quick Lunch." Three reading charters banks carry conspicuous signs "which indicate that the monetary business of the camp is well looked after."

### A Famous Hymn.

"I heard the voice of Jesus say," the finest and perhaps most loved of all Horatius Bonar's hymns, was written while the author was minister at Kelso. His son tells how that he would take his notebook, and while sitting at the piano, he would sing the hymn, making little sketches all over the margin of the page. It is evident from the manuscript that Dr. Bonar, like John Wesley, made use of a kind of shorthand, though in his case the signs employed bear a strong likeness to Pitman's system.

The original manuscript of "I heard the voice of Jesus say" is now very much worn and faded. It is written on a piece of paper, and the photographer who copied the original explains that he had to give an exposure of nearly three-quarters of an hour in order to get even a fairly good result.

Dr. Bonar's notebook, which is now one of the most precious relics he has left behind, contains, it is believed, many other hymns, including "I was a wandering sheep," written two or three years previous to "I heard the voice of Jesus say," and that very beautiful resignation hymn, "Thy way, not mine, O Lord," written in 1885.

### Dangerous Ground

"George Henry," said the colored dandy in the green waistcoat and white shoes, "did you tell pa dat I was heah callin' on yo' sistah Mandie?"

"Sho, Ah did," responded the little pickaninny, "en de of man frowned."

"Huh? Did yo' tell him yo' sistah calls me 'Suzah' ebby time Ah calls?"

"Sho! Ah did, en he sed he under-standed yo' callin' me 'Suzah' ebby time yo' called again yo' had be pulverized suah. Heah's yo' hat en cane, Mistah Persimmon!"—Detroit News.

### BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 7, Windsor, Ont., will send free to any mother her successful course treated with full instructions. Send no money but write her today if your children trouble you in this way. Don't blame the child; the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

**WHAT every cook should know is, which wheat makes the best flour, and why.** Winter wheat is put into the ground in the fall, but does not ripen until the following July. It matures slowly, is soft and very starchy. Spring wheat is sown in April or May, and ripens in August. It's a flinty, translucent wheat, rich in gluten and contains nearly twice as much nutriment as winter wheat.

**Royal Household Flour** is made entirely from the hard, nutritious spring wheat, carefully selected from all the wheat of this kind grown in Canada. Royal Household is fine, light and pure—milled by the most improved methods—in a mill as clean as your own kitchen. Ask your grocer for Ogilvie's Royal Household—just enough to try. You won't mind the slight advance in cost when you see the results in your bread and pastry.

#### Opening of a New Post Office

We are glad to be able to announce that in the course of a couple of weeks a new post office will be opened on the big prairie on Section 14, Township 30, Range 5, and will be called the Big Prairie Post office.

The postmaster will be Mr. John E. Tilleard and we understand that he has also undertaken the mail carrying contract.

Letters will go via Carstairs and Cremona.

The new post office will be a great boon on the big prairie, as under the present order of things some settlers have as much as twelve miles to go for their mail and a few even more than that.

To begin with, the mail will only be carried once a week.

#### Wins Suit Against Standard Oil

St. Paul, Minn., Nov. 21.—The government wins its suit against the Standard Oil Company. The United States circuit court today ordered the company dissolved and pronounced it an illegal corporation.

This case was heard in the United States circuit court at St. Louis in April 1939 by circuit court Judge Sanborn of St. Paul. Tandeverter of Cheyenne, Hook of Leavenworth, and Adams of St. Louis. Judge Sanborn of St. Paul, the presiding judge, wrote the opinion and the decree in which all the judges concurred, and sent them with a concurring opinion of Judge Hook, to Judge Adams of St. Louis who filed them and entered the decree in that city this morning.

The case is one of the most notable in the history of the nation, on account of the industrial and legal questions, and vast financial interest involved. The evidence filled 21 volumes, and occupied more than 10,000 printed pages, and the arguments of the counsel more than 3000 printed pages.

New York, Nov. 29.—Later it was authoritatively announced by officers of the Standard Oil Company that the case would be appealed, as it had been generally understood between counsel for both sides in the suit.

News of the order dissolving the Standard Oil Company caused an outbreak of liquidation in the stock exchange, and there were general declines of anywhere from one to four points in the general list. The price of Standard Oil Stock declined 2 1/2 points to \$700 a share on receipt of the news, and later dropped to \$690 a share, a decline of 12 1/2 points from the close of last night. The stock closed at \$690 bid and \$700 asked.

#### Local Improvement Districts may be Enlarged

Edmonton, Nov. 20.—The proceedings of the convention of councillors of local improvement districts in Alberta give indication of changes in the local improvement act when it comes up for revision at the next session of the Alberta legislature.

From words spoken by Premier Rutherford and Hon. W. H. Cushing, minister of public works, and resolutions passed by the convention, it is expected that the act will be amended (1) to enlarge the area of the rural municipalities, probably making them nine townships instead of four; (2) to give power to the council to borrow money, but with the necessary safeguards to ensure that money will not be borrowed unless the limit of taxation has been about reached; (3) to provide that all purely local matters be placed in the hands of local men, but that the machinery of local government be as ample as possible.—Calgary Herald.

#### A Magazine for the Home

The November issue of the Western Home Monthly consists of 88 pages and in point of excellence fully does justice to the high place it occupies in Canadian homes. Perhaps the most interesting feature is an easy competition, the sum of \$1,000 being divided amongst the winners of a few easy puzzles. There is no reason why some of these handsome prizes should not come to our district. The short stories, nine in all, are well worth reading, while the funny pages are as sparkling as ever. The editorials contain food for serious thought as the matters dealt with are of vital interest to every Westerner. Those of our readers who have not seen this excellent magazine can obtain a sample copy at our office. See special clubbing offer on another page of this issue.

## CANADA'S FLEET UNIT

SEVEN WARSHIPS TO BE BUILT FOR NAVY

**Naval Programme Adopted by the Government Involves Construction of Three Cruisers and Four Destroyers—Cruisers for Pacific Coast and Destroyers for Atlantic—Total Number of Officers and Men 1,403.**

Ottawa.—The plans submitted by the admiralty and the war office at the Imperial Defence conference of last summer for the naval and military defence of Canada in co-operation with the imperial force and on which the proposed action of the government is based, were laid on the table of the house by the Hon. L. P. Bourke.

In brief, the naval programme adopted by the government involves the construction of three cruisers of improved Bristol class, four destroyers of improved river class costing, for the cruisers, about five and one quarter millions for the destroyers about a million and a half, with an annual outfit for maintenance of something like two million dollars. Two of the cruisers are to be placed on the Pacific coast and one cruiser with the four destroyers on the Atlantic coast. The total number of officers and men for this nucleus of a fleet is estimated at 1,403, with a payroll of about \$400,000, with an extra \$100,000 for victualling.

In respect to the military proposals a provision is made for the extension of the plan of co-operation also under way in connection with the imperial general staff, the exchange of officers and the training of Canadian troops upon a common system of imperial organization.

In a memorandum submitted to the conference detailing the general proposals of the chief of imperial general staff, General W. E. Nicholson, it is pointed out that the military force of the British empire, including the Indian army and the troops of the various dominions, amount to the total of nearly 1,200,000 officers and men who can be called to arms in event of war, but that as a matter of fact, owing to the distribution and the various calls on those troops for garrison and other duties, the force available for the service, for expeditionary action in any part of the world, whether offensive or defensive, is not so great as most insignificant when compared with vast armies of the continental powers, and Japan. The whole history of the British empire, he says, is an illustration of the fact that naval and military services are interdependent and that their combined action and cordial co-operation.

**Suffragettes Won't Don Prison Garb.**  
Bristol, Eng.—Five suffragettes in Norfolk jail refused to wear the regular prison clothing. Their own garments were taken from them, and the suffragettes sat unclad in their cells cheering and taunting by singing the suffragettes' Marseillaise. The prison authorities made several attempts to induce the women to wear prison suits, but they remained obdurate. One of them was the suffragette who created a scandal at the Winston Spencer Churchill was horsewhipped a few days ago by Theresa Garratt. Penitentiary officials on the matter of forcing food on imprisoned suffragettes by means of a stomach tube, the plan which aroused an agitation even in parliament, the authorities were puzzled by the latest method of warfare.

**No British-German Naval Alliance.**  
Berlin.—Die Flotte, the official organ of the Navy League, writes today by Admiral Welby declaring that the league's paramount present duty is to conduct the idea of a naval understanding with Great Britain.

"A nation's peace," writes the admiral, "must be dearer than either through the defeat of an enemy or through armaments strong enough to frighten him off. A nation ever achieved peace by abandoning its own sources of power."

"It is neither morally necessary nor politically wise to enter into a naval understanding with England. It must not be forgotten that the construction of the German navy is the result of the malice of Germany's trade rivals found public expression, which filled Germany with grave anxiety for the future."

**Salvation Army to Found Colonies.**  
St. John's, Nfld.—Another of the many projects for the utilization of Newfoundland's vast unoccupied interior areas comes from the Salvation Army, which plans to found colonies in connection with its immigration department in the north-western part of the Army is in Newfoundland conferring with the government officials regarding the proposed settlement.

**Cheaper Rates Under Consideration.**  
London.—Penny-a-word cable is the subject of earnest discussion between Lord, Rodolpho Lemieux, postmaster general of Canada, and Sir John Buxton, postmaster general for Great Britain.

**To Be Governor of South Africa.**  
London.—Herbert J. Gladstone, secretary of state for home affairs, has accepted the post of Governor-General of South Africa.

## OPEN DEFIANCE BY MILLERS

United States Government Issues Orders to Inspectors to Seize all Bleached Flour

Washington.—Open defiance by millers of the United States government's warning to close the manufacturing of bleached flour on pain of seizure, has led the secretary of agriculture to take drastic action. An order has been issued by Secretary Wilson to inspectors of the department of agriculture to seize all of the bleached flour in the country and information has been received here that as a result of that action fourteen consignments comprising several hundred carloads were taken in the west recently.

Further seizures are expected. The matter has been ordered to stop the manufacture of this kind of flour, but it is said a number of them disregarded the secretary's command. It is supposed here that about \$1,000,000 of bleached flour was manufactured during the past year and that most of what remained of it is in the east, especially in and about New York.

About a year ago the department of agriculture following an investigation and experiments, decided that bleached flour was injurious to health. The Secretary issued an order to prevent the manufacture of such flour but for various reasons it has not been allowed six months to dispose of their stock. Some of them obeyed the order, it is said, but others continued their operations.

## Will Not Compromise Budget

London.—Walter Runciman, president of the board of education, speaking at Hull, made the important announcement in behalf of the government that it would refuse to entertain any negotiations of compromise with the peers over the budget. He stated that the government's position regarding the development of the political situation.

Some prominent Liberals still are of the opinion that Premier Asquith will resign on the rejection of the budget. He said that he would refuse to entertain any negotiations of compromise with the peers over the budget. He stated that the government's position regarding the development of the political situation.

**A Reign of Terror in Nicaragua.**  
New Orleans, La.—A collector from Panama says: "Passengers arriving from Nicaragua report that a reign of terror exists throughout the portion of that country controlled by President Zelaya."

Government troops are rounding up every person suspected of sympathy with the revolutionists and executing them without trial. More than 500 have been summarily shot and the executions continue. Resistance is ransacked by the military and the letters and evidence and when resistance is offered the houses are destroyed.

"Women relatives of the revolutionary sympathizers have been subjected to the most horrible indignities and outrages."

"Nicaragua refuses arriving on the Rhinus and in Costa Rica declare that it is time for the civilized world to intervene."

**Too Many Jews in Legal Profession.**  
St. Petersburg.—Because of the great number of Jews who have entered the legal profession since 1900, the minister of justice has further limited the percentage of Jewish students who may be eligible for admission to the bar.

Formerly the percentage was fifty and thirty respectively. The profession of the law was closed practically to the Jews prior to 1900 by reason of the discretionary power vested in the minister of justice now having been accepted as fully qualified to enter the profession during the thirteen years preceding that date.

**C. P. R. Not in Politics in B. C.**  
Montreal.—In an interview Sir Thomas Shaughnessy remarked that the newspaper reports of an interview between Premier McRae and himself on the occasion of his last visit to British Columbia, are untrue. Their conversation, when Sir Thomas called to pay his respects, was quite friendly and agreeable. Sir Thomas stated that whatever opinion he held in regard to the Canadian Pacific Railway policy, the Canadian Pacific Railway company is not in politics either in British Columbia or elsewhere.

**Insurance Bill Effective in 1911.**  
Ottawa.—The insurance bill, which was given its first reading in the senate, will be referred to the banking and currency committee for consideration before it receives a final reading. The new act comes into force in 1911. It was announced by typographical error.

## THE SUNDAY SCHOOL

Lesson IX.—Fourth Quarter, For Nov. 28, 1909.

## THE INTERNATIONAL SERIES.

Text of the Lesson, Rom. xv, 10-21. Memory Verses, 19-20.—Golden Text, Rom. vii, 21.—Commentary Prepared by Rev. D. M. Stearns.

Bishop Moule speaks of this section of this epistle from chapter xiii onward as "prevent duties in the power of eternal facts." Some of the facts are the sin that is in man, the redemption that is in Christ Jesus for sinful man, the "no condemnation" and "no separation" of chapter viii as a result of that great redemption and the far-reaching glories prospect for the whole creation with Jesus, a righteous center bringing true riches to all nations. The effect of this upon the mind of the believer should be such a result that he should be done with this present evil age and done with himself and determined to live wholly in the perfect will of God, as a new creature in Christ, old things passed away, all things become new (Rom. xii, 1, 2; II Cor. v, 17). Even Christ pleased not himself, and in the service of his Father he went on to walk and to please God and to set every one of us please his neighbor for his good to edification (Iv, 13).

Now, let us consider the great point in our lesson is that each one should for himself get right in this matter and not mislead his time in such a vain thing. Verse 10, if he himself is all wrong. "Every one of us shall give account of himself to God" (verse 12). Therefore why judge any brother? He is to be especially in eating and drinking, since all believers must stand before the judgment seat of God, or of Christ, for Christ is the Lord (verse 10). If we have received the Lord Jesus, then we are in Christ and are looked upon as having died with Him and risen with Him, so that our judgment for sin is past on Calvary, and we have His assurance that our sins and iniquities He will remember to no more.

He is to be a new man, to be able to walk in the light under the shelter of His precious blood and have communion and unbroken fellowship with Him, so that our judgment for sin is past on Calvary, and we have His assurance that our sins and iniquities He will remember to no more.

## U. S. IMMIGRATION INCREASING

Immigration From U. S. in That Month Exceeded That From Other Countries Combined.

Winnipeg.—For the first time in the history of immigration into Canada the number of immigrants from the United States in the month of September exceeded that from all other countries combined. The welcome which American settlers have received in Canada has always been an exceedingly cordial one, their contribution to the material prosperity of the country being very great. The total immigration from the United States for the calendar year was about 75,000, compared with a total last year of 50,000, and for the previous year of 38,000.

In the month of September the total number of immigrants entering the Dominion by ocean ports was 7,184, as compared with 5,400 in the corresponding month of the previous year. The number entering the Dominion from the United States in the same month was 5,195 this year, as compared with 4,659 last year. The increase in the number entering by ocean ports this year as compared with last year, with last year, was 75 per cent.

**Object of France is War with Church.**  
Rome.—Pope Pius in an address to the French Pilgrims declared that France was making war against the church with an aim of undermining the basis of Christianity. The pontiff said that Catholicism was suffering persecution by the French government under the pretext of the separation of church and state. All this the pontiff declared was a part of a more general policy of depriving the Catholic Church of its rights and he concluded his address by urging the faithful to cling to the Episcopacy. The papal words are accorded here as confirmation of the opinion that the Vatican believes the struggle originated with the French government on the school question is intended to be a decisive one. The pontiff declared that Christianity as a factor in the rearing of children, or in other words, the suppression of Catholicism, the France of tomorrow. It is asserted that the Vatican is ready to fight on two fronts, the one against the legal acknowledgment of the Catholic hierarchy and scholastic instruction.

**France Troubled About the Budget.**  
Paris.—France is having her budgetary crisis. More than \$400,000,000 of new taxes have been carried in the pending budget, the new taxes being principally levied on autos, tobacco, wines and inheritance. In the last mentioned class there is an increase of \$100,000,000 over last year.

Much opposition to the budget has developed, and the various interests already have taken part in one big public demonstration. Many deputies have refused to meet the constituents in the coming elections, after having voted for the big increase in taxation. The opposition remains firm, contending that pending schemes for workmen's pensions and other popular measures will be lost by the new expenditure, which should be met by taxation and not by loans, and has decided to state its existence and demand a vote of confidence next year.

**Cannot Force Views on Colonies.**  
London.—During a discussion on Asiatic immigration in the House of Lords, Lord Cromer said everybody in England would be glad if British subjects all over the world were given equal access to His Majesty's dominions, but anyone who had even the slightest misgiving as to the wisdom of the great overseas dominions, knew that that was an ideal which could only be attained by a very gradual time.

He was an adherent of opinion that discretion, but rather, signs of hardening. They all recalled that last they could not force upon the Dominion a policy of a kind which they were so strongly opposed.

**Lepine, Second to Louis Riel, is Dead.**  
Winnipeg.—Ambrose Lepine, first lieutenant of Louis Riel, died at St. Vital, and was buried there yesterday. This is the 24th anniversary of the execution of the halfbreed leader. He was adjutant of the Riel forces in 1870-71, and was president at the court-martial of Scott. He was condemned to death on May 4, 1874, at the instigation of Mr. Tache. The sentence was commuted to two years' imprisonment, and perpetual deprivation of civil rights.

**Haultain and the Elevators.**  
Regina.—By Resolution—The correspondence between the province and the Dominion relating to terminal elevators, Mr. Haultain indicated that he would not take up this question at this session.

## FARMERS FOR CANADA

SENATOR BORAH DEPLORES EXODUS TO CANADIAN FARMS

Regrets that Seventy Thousand of the Strongest and Most Progressive Citizens of the United States Have Moved to Canada—"Dry Farming" Campbell Addressed National Farm Land Congress at Chicago.

Chicago, Ill.—At the national farm land congress, now being held at the Hotel Laclede, the new scene of agriculture which has made productive great expanses of land in the far west and which is so rich in promise for the future was expounded by the man who may be said to have invented it. Paradoxical though it seems, the advantages of the most rainless climates for raising crops were contrasted with the humid regions where there is the delay and loss due to excessive rainfall.

Professor H. W. Campbell, of Nebraska, the "father of dry farming," told of the development and practice of the kind of tillage that makes the farmer impatient for months at a time of rain without any prospect of rain. Frank W. Mendell, congressman at large from Wyoming, presided, and the following speakers, gave an address, and other speakers included Governor R. S. Vose, of Idaho, Senator James H. Campbell, of Missouri, Professor A. E. Chamberlain, of South Dakota, and Dr. J. H. Hocking, of Illinois Agricultural college.

Senator Borah proclaimed his entire sympathy with the farmers of the congress, and laid special stress on the sorrowful condition of affairs that would result from the loss of the most progressive citizens of the United States to seek farms in Canada and the United States, and that he did not regret the loss of so much rich American blood.

## New Penitentiary for Calgary

Calgary.—The government fully recognizes the fact that more jail accommodation is needed for the Calgary and district and have already commenced the necessary steps in order to secure this required space in the near vicinity of Calgary, and will in the near future begin the erection of a penitentiary of sufficient capacity to serve the needs of the district for some years to come.

The plan made by Premier Rutherford when his attention was called to the fact that five of the prisoners were held in the police court to serve terms in the lock-up by Col. Walker were refused to be sent to the new penitentiary. The proposed new penitentiary will be used for short term convicts, that is, prisoners sentenced for two years or less, as it is the duty of the federal authorities to look after convicts sentenced for over two years.

At present the prisoners are kept in the mounted police guard room where they are crowded and have no ventilation for 60 prisoners, though as high as 80 or 90 have been kept in the quarters.

## Britannia Must Have Command of Sea

London.—The Times writes with satisfaction that the British navy is in spite of local differences of opinion, and some clearly accounted, but not without a certain amount of disagreement of policy, the imperial idea has already taken shape among all classes in the British empire. The recognition of the principle that must be at the root of any well conceived system of imperial defence, namely, the unquestioned command of the sea.

## New Zealand Discussing Licenses

Wellington.—It is proposed that a compromise should be arranged on the question of licenses by lessening a percentage of votes necessary to carry a license in the Dominion, and giving five years' grace to holders. The new proposal is a compromise between the two main parties, and will be definitely met with most determined opposition of prohibitionists and will in all probability be defeated.

## Control Continental Lines

Ottawa.—The railway commission is issuing a notice that no trans-shipment of power lines can be built over the telephone wires without order from the commission. This applies to companies with provincial, as well as federal charters. Order may be refused if the supreme court for final decision.

## The November Rod and Gun

While notable for the variety and range of its contents, the November number of Rod and Gun in Canada, published by W. J. Taylor, at Woodstock, Ont., in accordance with the season has no less than seven hunting stories. In addition, the opening one, descriptive of an official visit to the Indian reserves for the purpose of paying the treaty money, will attract much attention. An account of a Trip to Nipigon, after an absence of twenty-eight years, contrasting conditions then and now, brings forcibly home to readers the advances made in Canada in the last quarter of a century. A Winter trip through the Algonquin Park, the great national playground of Ontario, by the Superintendent, shows how well the public interests are guarded by those in charge. From sheltered house to shelter house these men travel all winter and do their best to prevent poaching in the national reserve, A Fishing Trip to Newfoundland, the climbs of the Alps, a sarcastic paper on the Perils of the Chase and numerous others, all having their own interests, make up a number every sportsman will be glad to possess and one which each should make sure he does not miss.

## Will Convene About January 15th

Edmonton, Nov. 20.—The Alberta legislature will convene for the next session on or about January 15th, the same date as last year.

Stricter legislation governing truancy in public schools in Alberta will be introduced at the coming session of the legislature under the direction of the attorney-general's department. While

no announcement can be obtained from the department the legislature is being prepared and will be introduced early in the session. The present truancy laws in force in the province are antiquated, and practically have no effect whatever on the regulation of truancy.—Calgary Herald.

## Our Clubbing Offer

The Pioneer has closed arrangements with the three of the leading papers in Winnipeg, the Weekly Free Press and Prairie Farmer, the Nor' West Farmer and the Western Home Monthly, that enables us to offer these periodicals with the pioneer at a bargain price of \$3.00 for the four papers. This combination is easily the best that has come out this fall, and as not one of them overlaps the other, each being distinctive in its own field, the combination is an ideal one. Any subscription entrusted to us will receive prompt attention, and be forwarded without delay to the offices of publication.

of permanent secondary schools in conjunction with demonstration farms in those sections of the province not coming within the immediate scope of the college itself.

And (3) By the development of a department of extension teaching by means of which instruction in agriculture will be carried to all parts of the province under the direction of the experts of the faculty.

The senate received the assurance from the Hon. Dr. Rutherford, the prime minister of the provinces, that the university would have the co-operation of the government in the realization of these plans.—Albertan.
